EXPERIENCE

Community Justice Initiatives

May 2029 - Jul 2026

Web & SEO Consultant

- Audited Community Justice Initiatives' website to evaluate SEO performance and accessibility compliance.
- Identified on-page SEO improvements, including keyword optimization, meta descriptions, and site structure, to increase organic visibility.
- Presented findings and recommendations to support the organization's digital outreach and community engagement goals.

Polycultural Immigrant and Community Services | Mississauga, ON

Oct 2023 – Apr 2024

Math Tutor

- Volunteered weekly at a local community centre tutoring elementary and middle school level math.
- Tutored 8 students engagingly and effectively, resulting in a **10%** average mark increase.
- Developed lesson plans and identified different teaching methods to cater to specific student needs.

PROJECTS

Customer Segmentation & Journey Analysis — Soulful Colour (*Client Project*)

Sept 2026

- Led a two-part market analysis to identify high-value decision-maker segments and diagnose friction points in the customer journey, informing messaging strategy and conversion-focused improvements
- Analyzed decision-maker attributes and buying signals to determine which customer segments most valued the client's Creative Intelligence approach, enabling more targeted messaging and outreach prioritization
- Mapped the end-to-end customer journey from initial interest through purchase to identify key drop-off points, surfacing opportunities to improve follow-up and lift conversion without increasing outreach volume

User Info Collector CLI | Python

Dec 2025

- Created a command-line application to gather and display user information as part of hands-on Python practice.
- Strengthened understanding of user input, data storage, and program flow using core Python concepts.

EDUCATION

University of Waterloo | Waterloo, ON

Sep 2025 – Present

Candidate for Bachelor of Mathematics, Honours Mathematics

- Scholarships: President's Scholarship
